Dedicated Kafka for high-volume event streams.

DEDICATED CLUSTERS

150GB - 900GB CAPACITY

2 WEEKS MAX RETENTION

3 KAFKA BROKERS

\$1,500 - \$3,200 per month

Extended

Dedicated Kafka for massive event streams.

DEDICATED CLUSTERS

400GB - 2400GB CAPACITY

6 WEEKS MAX RETENTION

8 KAFKA BROKERS

\$4,000 - \$8,700 per month

Extend your app with **Add-ons**

Add-ons are Heroku Elements that add powerful tools and services to your app. Choose from popular providers for performance monitoring, logging, caching and more:

Monitoring

Get started with free dev plans from providers like [New Relic](#) and [Librato](#), then upgrade to paid plans starting at \$19/month.

Logging

Troubleshoot your app with free and paid plans from [Papertrail](#), [Logentries](#) and more starting at \$7/month.

Caching

Improve performance by caching regularly accessed data using popular services like [MemCachier](#) starting at \$15/month.

And many more

Easily find and integrate the right service from over 150 popular add-ons in 20+ categories, including data stores, email, metrics, search and payment.
